SHEM ABERI

IT GRADUATE | ASPIRING IT SPECIALIST

PROFILE

I earned my Bachelor of Science degree in Information Technology from Kenyatta University. I have gained knowledge and experience in programming, information systems, and web development with proven experience in technical systems management and supporting users in different settings. I am well equipped with strong communication, leadership, and problem-solving skills acquired through academic and leadership experience. My current objective is seeking an entry-level IT position in the ever-evolving tech world to put my skills to work and help drive business success.
